

How to apply a hotfix from the Cloud

▼ HOTFIX STEPS ▼

- 1) Plug **WiFiRanger** router into power
- 2) **Wait 5 minutes** for WiFiRanger to power up fully
- 3) **Connect device** (smartphone / tablet / laptop) to WiFiRanger
- 4) **Enter password** if prompted for WPA key
- 5) Open device's **web browser** (Chrome, Safari, Internet Explorer, Firefox, etc)
- 6) Go to **mywifiranger.com** or **10.1___.1:8080** to bring up Control Panel

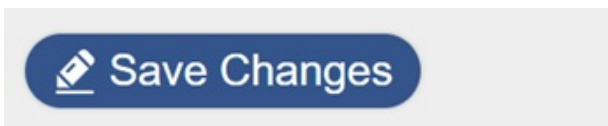

- 7) Get WiFiRanger **online** via WiFi, Cellular, or Ethernet WAN
- 8) Click **Cloud Disconnected** or **Check for Updates** at top right of Control Panel

- 9) **Wait 90 seconds** for scrolling blue bars to complete

- 10) Get on **Setup tab** and click **Save Changes** at bottom left

- 11) **Reboot** your WiFiRanger using the Reboot button in the lower right corner of the Setup tab.

Hotfix is Now Saved and Applied
